

LEDONOMIC COMPLETE – fits the budget!

Ledonomic
 – complete package

The package contains the following:

- 4 different pictograms:
 Arrow left, right, down + blank
- Mounting rail for wall
- Jumper for centralization

Ledonomic is a simpler model of the emergency exit signs with the same high standards and advanced technology as the other products from Ledolight.

Like the previously known Ledosafe, Ledonomic uses LED. This provides high readability and stylish design. Ledonomic is developed and manufactured in accordance with the European standard. A long service life, low energy consumption and no maintenance requirements make Ledonomic a cost-effective investment. Manufactured with Swedish quality and design in accordance with the EU and the Swedish laws and norms.

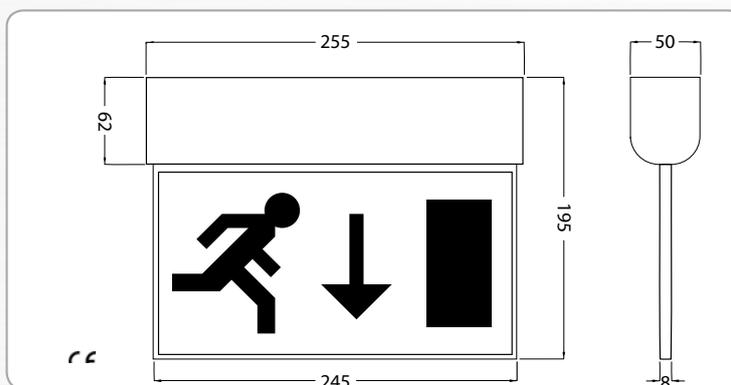

The electrical unit is equipped with sophisticated electronics. Self-testing is a matter of course. Ledonomic is both decentralized and centralized.

- Delivered complete and ready for ceiling and wall installation.

Optional - Choose color of the power unit
 The aluminium or white color comes as standard

Ledonomic aluminium or white colors - standard

Technical specification

Material	Aluminium and Acrylic
